To Whom it May Concern  
Re: San Ashgar  
Lions Head Construction

January 24, 2018

It is my pleasure to recommend Mr. San Ashagar as a general contractor to any dentist. I had the privilege to know San for more than two decades. San is well known for his honesty, integrity and caring personality that he has presented through out the years of working in construction management industry.

When I graduated from the Orthodontic Specialty Program at UBC, I have decided to build my own orthodontic clinic from the scratch. I have known Sinclair Dental for several years and had built my general dental office in Coquitlam with Sinclair Dental in 2007. Even though I knew several general contractors and had a chance to work with a few of them, I have decided ask San for help to build my state of the art orthodontic practices in Coquitlam and then in Pitt Meadows.

I have been extremely happy with San's quality of work, integrity, punctuality, and overall performance as a reliable and well experienced general contractor. For the same reason I have recommended him to several dentists in the community including Dr. Nancy Vertel and Dr. Kumudu Seryia for helping them to use his services for their new dental practices.

I am well aware that they all happy with San's services and I am confident that they can rely on his expertise to help their dental professional clients.

I am without doubt that San will be a valuable General Contractor for your company. I enthusiastically recommend him and wish him the very best in future. If I can provide you with any further information, please do not hesitate to contact me.
