

To Whom It May Concern

RE: Trade Reference for Mr. San Ashgar, Lions Head Construction Ltd.

This letter is to confirm my working relationship with Mr. Ashgar and Lions Head Construction in the building of my dental office Olympic Village Dental. Lions Head was the general contractor for this project and was involved in the planning, construction and finishing of this office. In my experience they performed an admirable job in dealing with construction challenges that were unforeseen and delivered a high quality end product that met my expectations.

I found Mr. Ashgar very personable and customer service oriented. He met or exceeded all my demands for changes or deficiencies without argument and yet was able to keep the project on budget. I personally witnessed his hard work and commitment to excellence.

I would definitely recommend Lions Head Construction to be considered for any dental office construction projects in the future.

Yours Sincerely

Dr. Mehrdad Ezzati
